

## Lucy Malheur – Remedy

10 years, 10 albums.

It all started in 2012 with the first album called “Therapy” which was originally planned as a demo. In the meantime, a number of singles and EPs as well as nine more albums have been released.

“Remedy” is a very personal selection of old, new, newly recorded and remixed/remastered songs.

Lucy Malheur is a German singer/songwriter who is not limited to just one musical style. Her artistic versatility makes it difficult to categorize her, and her soft, sensual and emotional voice has a high recognition value.

With very few exceptions, she only publishes her own songs.
